

How to Change the Inkpad on Your LetterCandy Stamper

- ♥ Locate the ribbed edge of the inkpad at the front of the stamper
- ♥ Firmly push the inkpad from the front of the stamper until it partially sticks out at the back
- ♥ Pull the inkpad out from the back of the stamper (this part can be a bit fiddly and messy)
- ♥ Slightly press down the stamper until there is just enough space to insert the new inkpad
- ♥ Insert the new inkpad (with the inky side facing down) via the back until it aligns flush with the stamper
